International Technical Certificate in Oil & Gas Operational Safety

National Examination Board in Occupational Safety and Health
(NEBOSH)

Introduction

This new qualification is designed specifically for those with safety responsibilities in the oil and gas industry, managers, supervisors, offshore and onshore workers who need specialist skills and knowledge to fulfil their health and safety responsibilities.

The qualification looks at international management systems and standards, enabling delegates to effectively discharge workplace safety responsibilities both onshore and offshore. The Certificate also addresses the importance of process safety management in the oil and gas industry.

Students should already have an underpinning knowledge of safety issues and may already have studied one of NEBOSH's Certificate-level qualifications.

Duration: 6 Days
Cost: £950 + VAT
